What is HP Smart App

HP Smart App is a mobile application developed by HP Inc., a leading technology company known for its printers and other imaging devices. HP Smart App allows users to easily print, scan, and manage their HP printers and documents from their smartphones or tablets. The app offers a wide range of features and functionalities, including wireless printing, scanning, printer status monitoring, ink and paper ordering, printer setup and troubleshooting, and access to cloud-based storage services such as Google Drive and Dropbox. HP Smart App is available for both iOS and Android devices and is compatible with various HP printers, including HP DeskJet, HP ENVY, HP OfficeJet, and HP LaserJet models. It provides a convenient and efficient way for users to print and manage their documents and photos using their mobile devices, making it a popular choice among HP printer users.

Stay productive and organized
with HP Smart
Share to your HP printer anytime, anywhere. Install the
app on all your devices and save time for what matters.

How to Download HP Smart App for Printer

You can download the HP Smart App for your printer by following the steps below:

1 Ensure that your printer is compatible with the HP Smart App. The HP Smart App is designed to work with select HP printers, including HP DeskJet, HP ENVY, HP OfficeJet, and HP LaserJet models. You can check the list of supported printers on the HP Smart App's official website or in the app stores.

2 On your mobile device (smartphone or tablet), go to the app store that is compatible with your device's operating system. For iOS devices, go to the Apple App Store, and for Android devices, go to the Google Play Store.

3 In the app store's search bar, type "HP Smart" and search for the app.

4 Look for the official HP Smart App from HP Inc. in the search results. It should be listed as "HP Smart" and have the HP logo.

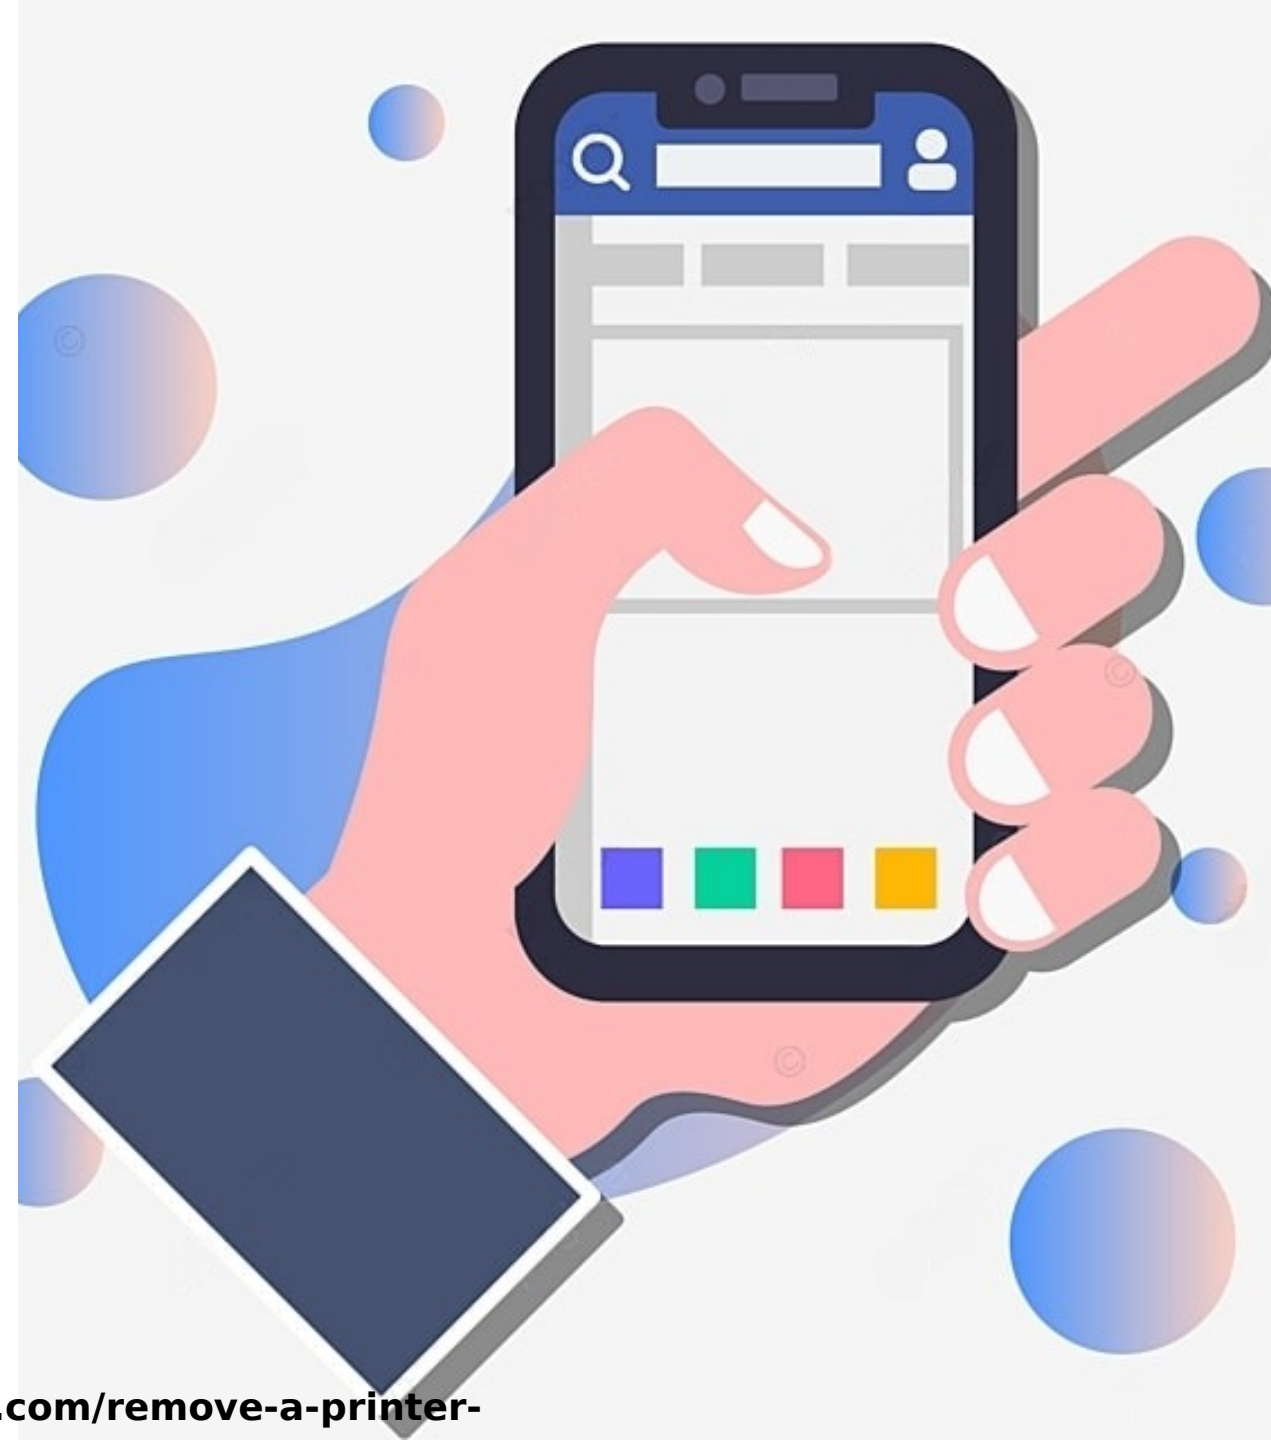

5 Tap the "Install" or "Get" button next to the HP Smart App to start the download and installation process.

6. Follow the on-screen prompts to complete the installation. The app may require permission to access certain features or settings on your device, such as camera, storage, and location, to function properly. Be sure to grant the necessary permissions as prompted.

7. Once the installation is complete, open the HP Smart App on your mobile device.

8. Follow the app's on-screen instructions to set up and connect your printer to the app. This may involve selecting your printer from the list of available printers, connecting to your printer's Wi-Fi network, and signing in with your HP account.

9. Once your printer is successfully connected to the HP Smart App, you can start using the app to print, scan, and manage your printer and documents conveniently from your mobile device.

How to Remove a Printer From HP Smart App

To remove a printer from the HP Smart App, you can follow the steps below:

1. Open the HP Smart App on your mobile device (smartphone or tablet) that is connected to the printer you want to remove.

2. On the app's main screen, locate the printer you want to remove. The printer(s) associated with the app will be listed under the "Printers" or "My Printers" section, depending on the app version and configuration.

3. Tap and hold on the printer icon you want to remove. A context menu or options menu should appear.

4. From the context menu or options menu, select the "Remove" or "Delete" option. This will initiate the process to remove the printer from the HP Smart App.

5. Confirm the removal when prompted. The app may ask for confirmation before removing the printer to ensure you want to proceed with the removal.

6. Wait for the app to remove the printer. The app will remove the printer from its list of connected printers and update its interface accordingly.

7. Once the removal process is complete, the printer will no longer be visible in the HP Smart App.
